 - 8. The confirmation of the reservation of a parking place (including the "Code-QR") is printed out in paper form. Lack of a printed, legible confirmation of a parking place booking together with the "codeQR" may constitute an obstacle in entering the Car Park. The above does not constitute grounds for reimbursement of the reservation fee paid by the Service Recipient. In case of lack of printed confirmation of parking space reservation, it is possible to scan such confirmation from the screen of the Service Recipient's device, provided that the image is compatible with the technical requirements of the reader of "codes-QR" located in the entry column at the entrance to the Car Park. However, Interparking is not able to ensure such compatibility, therefore, in the first place, the Service Recipient is obliged to have a printed confirmation of making a parking place reservation.
 - 9. The "Code-QR" located on the printed confirmation of parking space reservation or,

optionally, on the screen of the Service Recipient's device, should be applied (scanned) to the "Code-QR" reader located in the entry column at the entrance to the Car park. Then the parking system will open the entry barrier allowing to enter the Car Park. In case of entry into the car parks, which require driving through the Kiss&fly zone, only "Code-QR" must be used - both at the entrance to the Kiss&fly zone and the parking places.

10. Following the concluded Agreement, Interparking is obliged to ensure the availability of a parking space in the Parking Lot to the Client for the period indicated in the concluded Reservation Agreement. By entering such Parking Lot and occupying a parking space by the Client, an agreement is concluded between the Client and Interparking for the use of a parking space in accordance with the Regulations of the Parking Lot. The Regulations of the Parking Lot are available on the website www.airport.gdansk.pl. By entering into a Reservation Agreement, the Client confirms that he/she is familiar with the Regulations of the Parking Lot. The reservation fee paid by the Client to conclude a parking space reservation Agreement will be credited against the fee for the use of a parking space in the Parking Lot; however, if the time of use of the parking space by the Client does not exceed the time indicated in the reservation more than 3 hours, the Client will not be charged additional fees on this account. If the Client exceeds the parking time indicated in the reservation confirmation, he/she will be required to pay for the use of the parking space before leaving the Parking Lot, a fee for the use of the parking space on a new parking basis at the automatic ticket office, according to the rates indicated in the parking lot price list and the earlier parking time covered by the reservation is not taken into account when determining the amount of such fee. The surcharge must be made by scanning the "code-QR" received during the reservation process at the automatic cash register. After scanning, continue to follow the information indicated at the automatic cash register. Within the Booking Contract, the Service Recipient is entitled to one entry and one exit from the Parking Lot. The Booking Contract ends upon leaving the Car Park.
11. The Service Recipient may edit the Reservation Agreement by using the "Manage your reservation" link included in the confirmation sent to the e-mail address provided by the Service Recipient. Editing the booking causes the cancelation of the original reservation. A new reservation is created which requires a new payment. The cost of cancelled reservation is fully refunded. The refund is be made using the same method as used for paying the fee. A new confirmation of the Reservation Agreement with "QR code" is generated and sent to the e-mail address provided by the Service Recipient. The method of using the "QR code" is described in Clause 4 (7 and 8).
12. The Service Recipient, pursuant to the Agreement, is entitled to enter the Car Park no earlier than 6 hours prior to the time of entry into the Car Park indicated in the reservation process. When entering the Car Park, the Service Recipient takes the first available parking place. The service covers only the Car Park, for which the reservation was made. The service does not apply to other Car Parks, including the Kiss&Fly zone. In case of using such other Car Parks and/or the Kiss&Fly zone, a fee will be charged in accordance with the price list valid for such Car Parks and/or the Kiss&Flyzone.
13. Subject to paragraph 14 below, the Service Recipient will not have the right to withdraw from the Agreement. This restriction will not apply to consumers who are able to withdraw from the Agreement until Interparking has performed the Service, i.e. until

Interparking sends a message containing the "Code-QR" to the e-mail address provided by the Service Recipient. Such withdrawal requires only sending by the Service Recipient to the e-mail address of the Service Provider bok@interparking.com a statement of withdrawal from the Agreement, containing the following data: name and surname, e-mail address given during the reservation process and the time of entry to the Car Park indicated in the reservation.
